

Instructions for the desktop

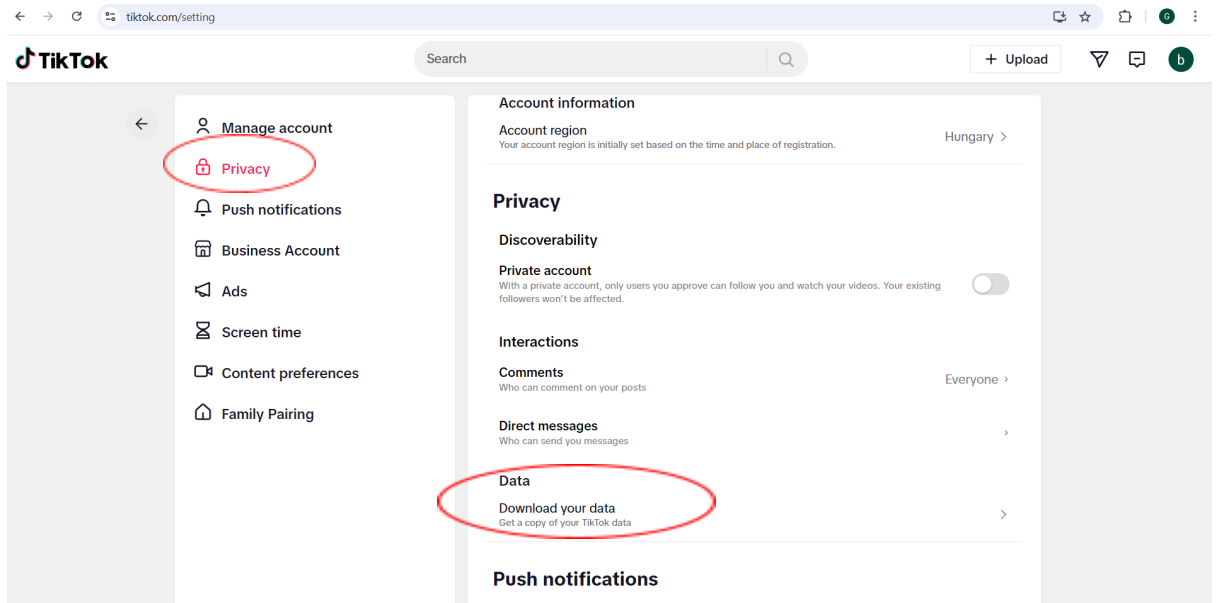

1. Go to TikTok.com
2. Click on “More” on the left part of your monitor.

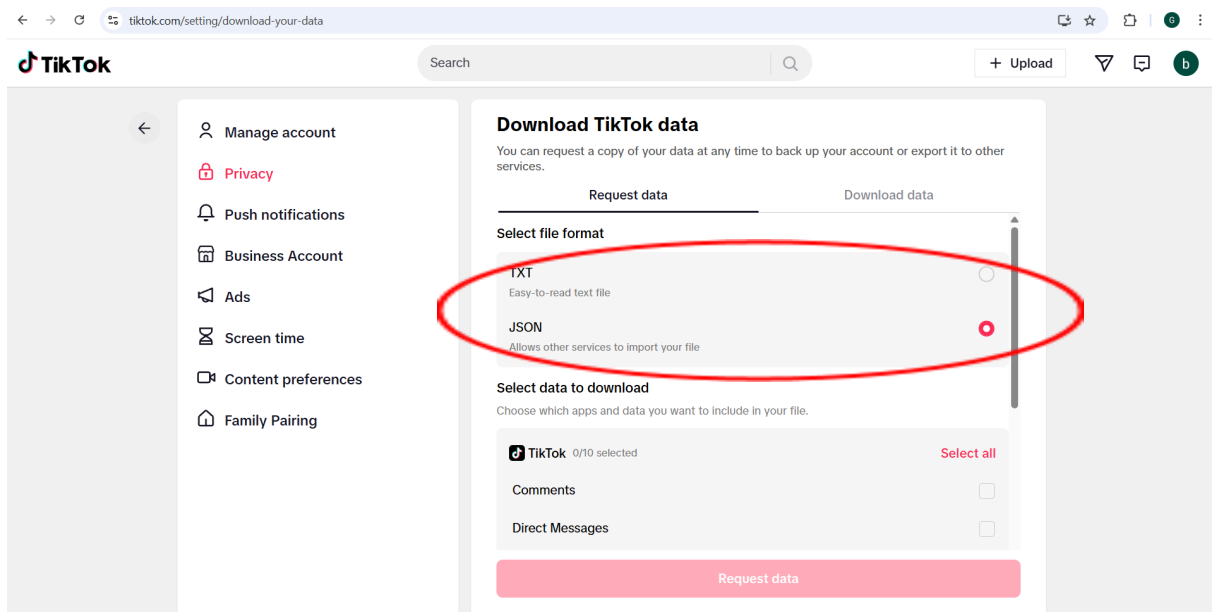

3. You will see a list appear, on this list choose settings

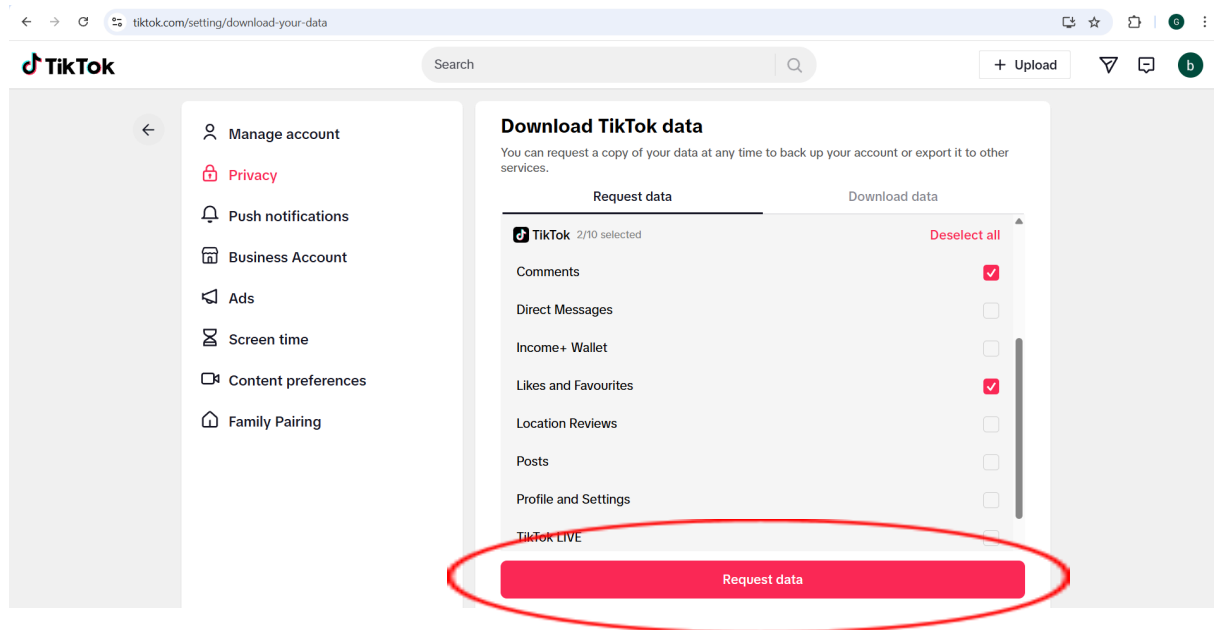

4. Here, click on “Privacy”, then on “download your data

5. You will see this page appear, here, at the select file format option choose json.

- At the “**Select data to download**” section, select “**Comments**”, “**Likes and Favorites**” and “**Your Activity**”. After this, **select request data**, at the bottom of the page

- After you request your data, the **download option** will appear within a few minutes (sometimes it can take a few hours). Once it is available, click **Download**. Google may ask you to verify your identity. After verification, you will be able to download the ZIP file. **Please upload this ZIP file to the Qualtrics link we shared with you (please also check the instructions on how to upload to Qualtrics).**
